November 18, 1994

Notice to Water Users:

On Tuesday, December 6, 1994 the State Engineer will hold a public meeting to discuss the Pahvant Valley ground-water management plan. The meeting will be held at 7:00 p.m. in the Millard County Commissioners' Chambers, 60 South Main Street in Fillmore.

The purpose of the meeting will be to discuss the Division of Water Rights efforts on acreage enlargement since the public meeting on February 24 and the water users response to these efforts. The groundwater management plan for the Pahvant Valley will be briefly reviewed along with the Division's proposed 1995 work plan for Pahvant Valley.

The need for a distribution system and water commissioner will also be discussed. The discussion will address the organization and operation of distribution systems, the duties of the system committee, the authority and duties of the commissioner, the annual water user assessments, and the need for measuring devices.

In accordance with the American with Disabilities Act, individuals needing special accommodations should notify Glenda McMaster at the address in the letterhead at least three days prior to the meeting.

Your participation is greatly appreciated.

Sincerely,

Robert L. Morgan, P.E.
State Engineer
